

Duke University Health Systems and  
The Division of Neurology

PRESENTS THE

9<sup>th</sup> Annual Advanced  
EMG & EMG-Guided  
Chemodenervation  
Workshop

March 4-6, 2011  
Duke University Medical Center  
Durham, NC

Sponsored by the Duke University School of  
Medicine

## Guest Faculty

Erik Stålberg, M.D., Ph.D., Professor Emeritus, Clinical  
Neurophysiology, Uppsala University Hospital, Uppsala, Sweden

Jože V. Trontelj, M.D., D.Sc., Professor of Neurology, Institute of  
Clinical Neurophysiology, University Medical Center, Ljubljana,  
Slovenia

James F. Howard, M.D., Distinguished Professor of Neurology,  
Chief, Neuromuscular Diseases Section, University of North Carolina at  
Chapel Hill, NC

Sanjeev Nandedkar, Ph.D., CareFusion Corp.

Zaeem Siddiqi, M.D., Ph.D., Associate Professor of Neurology,  
University of Alberta, Canada

Francis O. Walker, M.D., Professor of Neurology,  
Wake Forest University, Winston-Salem, NC

## Duke University Medical Center Faculty & Staff

Janice M. Massey, M.D., Professor of Medicine (Neurology),  
Director, Neuromuscular Service & Electromyography Laboratory

Donald B. Sanders, M.D., Professor of Medicine (Neurology)

Vern C. Juel, M.D., Associate Professor of Medicine (Neurology)

Lisa Hobson-Webb, M.D., Assistant Professor of Medicine  
(Neurology)

Edward C. Smith, M.D., Instructor in Pediatrics (Neurology)

David L. Witsell, M.D., M.H.S., Associate Professor of Surgery  
(Otolaryngology – Head & Neck Surgery)

Coordinator: Angela Cope

Technical Assistance: Kevin Morley

Some of the faculty: Sanders, Stålberg, Massey, Trontelj

Janice: "This is what we're going to be doing over the next 2 ½ days."

Erik

Sanjeev

Francis

At the lectern (not to be confused with a podium):

Ted wanted to see how it feels:

Ultrasound of the median nerve by Lisa – piece of cake!

SFEMG of the EDC by Don

Vern has SFEMG of his EDC by Janice – just like being a fellow again.

Erik checks Elias' frontalis during voluntary activation, under close observation.

Jože shows how to stimulate the axons to the frontalis with a monopolar needle, while Tatjana keeps tabs.

Sanjeev explains quantitative EMG.

Chip discusses the fine points of repetitive nerve stimulation studies. Is Angie asleep?

Erik elicits a benediction from Sanjeev

Looks like a couple of hitmen here.

Dane

The staff: Kevin

Angie, with The Book, and the authors

And then there was food:

Tatjana and Eva prepare their specialties.

And Sanjeev and Anjali do the same.

Relaxing at the end of the day: Tatjana, Jože, Chip and Sanjeev.

And a final get-together.
